Chef Phoenix is a new locally based catering company. Allow us to be your culinary concierge: helping you with your food programs to maximize mealtimes at your office.

We increase in-office time by eliminating your employees' endless search and unnecessary travel for the perfect meal.

Our scratch-made creations incorporate fresh, local, organic ingredients making everyone happy: from employer to employee.

Skilled chefs and our nutrition team thoughtfully plan every menu around meals that keep your company feeling nourished and working at their highest potential. Our job is not to give you endless options, but to provide you with menu solutions that make your company a great place to work.

Ultimately, this will allow your team to focus on more important things while we take care of the food.
